

Selected actions on Climate change themes in Hagen

Hans Joachim Wittkowski
City of Hagen
Environment Department

Localisation SDGs and Implementing the New Urban Agenda Experiences from the City of Hagen

Agenda

- City of Hagen
- the Council of the City of Hagen enacted the Sustainable Development Goals for the 2030 Agenda - Hagen is a signing municipality
- climate and energy policy goals of the City
- certain fields of 'Sustainability' in the whole City of Hagen and the connection to SDGs

1. Sustainable urban development (**Integrated Urban Development Concept** (ISEK), integrated district development concept (INSE) 2017, "Social city" Hagen Wehringhausen, concept of action for housing Hagen)
2. Climate protection management (**Integrated Climate Protection Concept** (IKSK), energy district development, renewable energy, EU-LEAP project)
3. Participation in **European Energy Award®**; (Quality energy management and certification process)
4. **Integrated Climate Adaptation Concept** (IKLAH) (climate change, demographic change, heat in the city, heavy rain events, civil protection, emergency services)
5. **Flood alert and action planning** (EU-Flood Risk Management Directive)
6. Implementation of the EU Air Quality Framework Directive (implementation of the **Clean Air Plan Hagen**: public transport, truck routing, LEZ, mobility station, networked mobility)
7. **Sustainable mobility** (E-bike promotion, E-Mobility Days, car-sharing offers, working group biking, bike-traffic future workshop)
8. International cooperation (**Municipal Climate Partnership** with Portmore, Jamaica; water resource management in Burkina Faso, Connective Cities platform)
9. Sustainable consumption ("**Fairtrade Town Hagen**, fair trade schools & universities")
10. Environmental **Education for Sustainable Development** (theatre project, Plant-for-the-planet Academy at the distance University, working group "Climate justice", development of climate claim with youth groups, World Construction Project North Rhine-Westphalia)
11. Applying for **UNESCO World Heritage site** (GeoPark Ruhr area, Vorhalle Quarry Hagen-Vorhalle, Geo-Path Kaisberg)
12. Hagen applies for model municipality "**Global Sustainable Municipality** North Rhine-Westphalia" with the LAG21e.V. to implement SDGs in the city and its administration processes.

- Key action fields

Why sustainability is an action field for the City of Hagen?

1st Sustainability Report of 2006

Picture Copyright: Raab, City of Hagen

Main goals for German cities and communities

Goal 1: No Poverty

Goal 4: Quality education

Goal 8: Decent work and economic growth

Goal 11: Sustainable cities and communities

Goal 12: Responsible Consumption and Production

Goal 13: Climate Actions

Goal 17: Partnerships for the Goals

Focussing the goals from the view of a municipality

„ In the municipality for the municipality“		
SDG 1 – no poverty		decreasing risk of poverty
SDG 11 – sustainable urban development		sustainable mobility
SDG 6 – work, growth		resilient economic structure
„ In the municipality for the world“		
SDG 1 – no poverty / SDG 12 consumption		Fairtrade
SDG 13 – climate adaptation		climate stress and effects
„ In other countries and by other countries“		
SDG 17 – global partnership		municipal partnerships

Picture Copyright: LAG21 Dortmund

City of Hagen

- Located in the state North-Rhine Westphalia (State)
- 194,776 inhabitants (2016)
- est. 163,000 (2030)
- founded in 1746
- 160 sq km
- 86 m – 438 m sea level
- on the basis of 4 rivers
- since 15th century important location of steel and metal industry (industrial changes since 1970)
- 1974 founding of the „Fernuniversität - University for distance learning“ in Hagen (currently ca. 75,000 students and 1,825 staff)
- „Gate of the Sauerland“ hill region East-Southern part of North-Rhine Westphalia

Sustainable energy and climate protection policy

Main climate protection goals of the City of Hagen

Tangible targets of Climate Alliance

- City of Hagen is member since 1991 with following voluntary commitments:
- 

CLIMATE ALLIANCE
KLIMA-BÜNDNIS
ALIANZA DEL CLIMA
- to reduce **CO₂ emissions by 10 percent every 5 years**, equivalent to the halving of per capita emissions by 2030 (from baseline 1990)
 - to strive for a **per capita emissions level of 2.5 tons CO₂** equivalent through energy conservation, energy efficiency and RES
 - to work towards **climate justice in partnership with indigenous peoples** by supporting their initiatives, raising awareness, and abstaining from the use of unsustainably managed tropical timber
 - For more than 25 years, Climate Alliance member municipalities have been acting in partnership with indigenous rainforest peoples for the benefit of the global climate. With over 1,700 members spread across 27 European countries, Climate Alliance is the world's largest city network dedicated to climate action and the only one to set tangible targets. Recognizing the impact our lifestyles can have on the world's most vulnerable people and places, Climate Alliance pairs local action with global responsibility.

Picture: Climate Alliance, Frankfurt/M.

climate protection themes have to be placed in the cities - of course also in Hagen!

Comparison of measured status and goals towards Climate Alliance commitments

- continuous reduction of GHG emissions by 10 percent every 5 years
- halving of per capita emissions by 2030 from 1990 level
- long term goal of levelling off at 2.5 tons CO₂ per person and year.
- European Environment Agency estimates that the average European emitted about 9 tons
- Clearly there is much to be done!

- Traffic
- Heating
- Light/Power
- industrial processes

1. Integrated Urban Development Concept (ISEK)

Fields of 'Sustainability' in the whole City of Hagen and the connection to SDGs

1. Sustainable urban development (**Integrated Urban Development Concept (ISEK)**, integrated district development concept (INSE) 2017, "Social city" Hagen Wehringhausen, concept of action for housing Hagen)
2. Climate protection management (**Integrated Climate Protection Concept (IKSK)**, energy district development, renewable energy, EU-LEAP project)
3. Participation in **European Energy Award®**; (Quality energy management and certification process)
4. **Integrated Climate Adaptation Concept (IKLAH)** (climate change, demographic change, heat in the city, heavy rain events, civil protection, emergency services)
5. **Flood alert and action planning** (EU-Flood Risk Management Directive)
6. Implementation of the EU Air Quality Framework Directive (implementation of the **Clean Air Plan Hagen**: public transport, truck routing, LEZ, mobility station, networked mobility)
7. **Sustainable mobility** (E-bike promotion, E-Mobility Days, car-sharing offers, working group biking, bike-traffic future workshop)
8. International cooperation (**Municipal Climate Partnership** with Portmore, Jamaica; water resource management in Burkina Faso, Connective Cities platform)
9. Sustainable consumption ("**Fairtrade Town Hagen**, fair trade schools & universities")
10. Environmental **Education for Sustainable Development** (theatre project, Plant-for-the-planet Academy at the distance University, working group "Climate justice", development of climate claim with youth groups, "World Construction" Project North Rhine-Westphalia)
11. Applying for **UNESCO World Heritage site** (GeoPark Ruhr area, Vorhalle Quarry Hagen-Vorhalle, Geo-Path Kaisberg)
12. Hagen applies for model municipality "**Global Sustainable Municipality North Rhine-Westphalia**" with the LAG21e.V. to implement SDGs in the city and its administration processes.

1. Integrated Urban Development Concept (ISEK)

challenges & frameworks

- social and demographic change
- structural change
- economic globalisation
- sustainability
- climate change
- new conditions and a new understanding of the place to live and work
- we need a common goal and a common path!

characteristics:

- citywide and integrative
- cross - stakeholder cooperation
- implementation oriented
- no legal basis

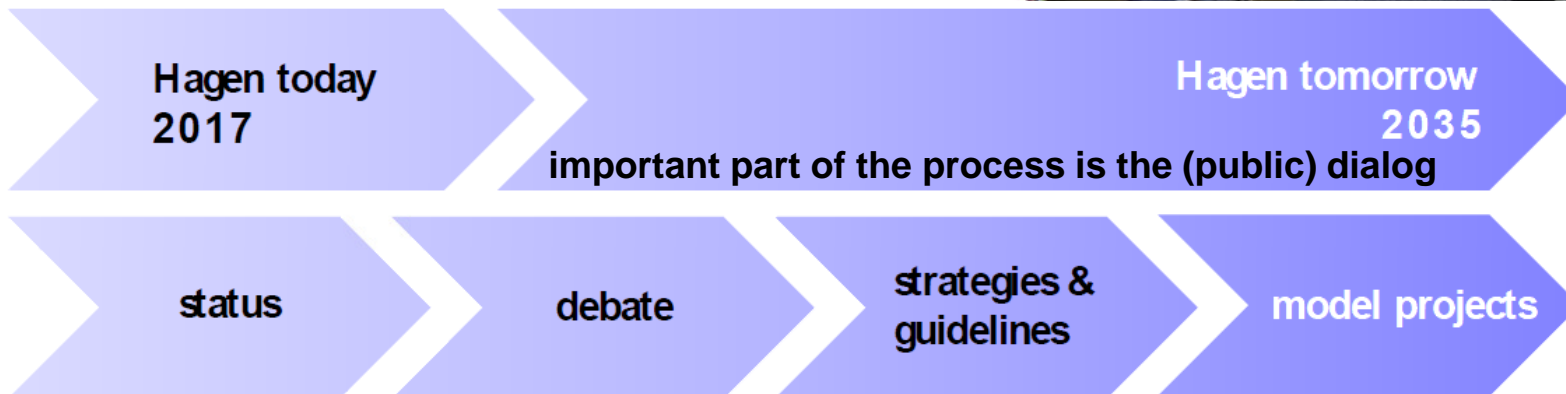

1. Integrated Urban Development Concept (ISEK)

the process

- public dialog
- expert discussion
- target group workshop
- online platform
- ...
- Vision!!!

debate

2. Integrated Climate Protection Concept (IKSK)

Fields of 'Sustainability' in the whole City of Hagen and the connection to SDGs

1. Sustainable urban development (**Integrated Urban Development Concept (ISEK)**, integrated district development concept (INSE) 2017, "Social city" Hagen Wehringhausen, concept of action for housing Hagen)
2. Climate protection management (**Integrated Climate Protection Concept (IKSK)**, energy district development, renewable energy, EU-LEAP project)
3. Participation in **European Energy Award®**; (Quality energy management and certification process)
4. **Integrated Climate Adaptation Concept (IKLAH)** (climate change, demographic change, heat in the city, heavy rain events, civil protection, emergency services)
5. **Flood alert and action planning** (EU-Flood Risk Management Directive)
6. Implementation of the EU Air Quality Framework Directive (implementation of the **Clean Air Plan Hagen**: public transport, truck routing, LEZ, mobility station, networked mobility)
7. **Sustainable mobility** (E-bike promotion, E-Mobility Days, car-sharing offers, working group biking, bike-traffic future workshop)
8. International cooperation (Municipal Climate Partnership with Portmore, Jamaica; water resource management in Burkina Faso, Connective Cities platform)
9. Sustainable consumption ("**Fairtrade Town Hagen**, fair trade schools & universities")
10. Environmental **Education for Sustainable Development** (theatre project, Plant-for-the-planet Academy at the distance University, working group "Climate justice", development of climate claim with youth groups, "World Construction" Project North Rhine-Westphalia)
11. Applying for **UNESCO World Heritage site** (GeoPark Ruhr area, Vorhalle Quarry Hagen-Vorhalle, Geo-Path Kaisberg)
12. Hagen applies for model municipality "**Global Sustainable Municipality North Rhine-Westphalia**" with the LAG21e.V. to implement SDGs in the city and its administration processes.

2. Integrated Climate Protection Concept (IKSK)

Climate protection goals of the City of Hagen

Council Decisions (extract)

- „**Energiewende**“ energy transition in Hagen (2011)
- continuation of European Energy Award/eea[®] by 2020 (Energy Team)
- implementation of an energy political action programme
- joining the Covenant of Mayors (**2012**) (Bürgermeisterkonvent)
 - 20 % increasing of energy efficiency
 - 20 % increasing of the rate of RE and
 - 20 % decreasing of CO₂ emissions)

Integrated climate protection concept - IKSK (2013)

- placement of a climate protection manager in 2015 (federal funded)
- project development from April 2015 on
- Follow-up proposal for on-going placement of staff after Apr 2018

climate protection hat to be placed in the cities - of course also in Hagen!

2. Integrated Climate Protection Concept (IKSK)

How to achieve an increase in renewables „Energiewende“ - Energy transition in Hagen: a firework of efforts

Plans , Programme, Measures, Implementations

- energy concepts of supply companies of the 80th
- energy concept Hagen 1992-1995 with detail concepts
- CO₂-reduction concept
- member of Climate alliance since 1991
- forum climate protection since 1998 (Local Agenda 21)
- concession contract with municipal works/ Stadtwerke Hagen AG 1998
- contracting of municipal buildings 1996 (since 2000 Building Department Hagen)
- cooperation contract with municipal works /Stadtwerke Hagen AG 2000 with energy supplier Mark-E AG since 2002 (commission)
- council decision on concretization of climate protection concept 2007 containing 20 measures
- energy guidelines for municipal buildings (draft)
- participation in European Energy Award® since 2008/2012/2017
- EU project LEAP – initiative for energy actions and planning
- council decision on energy transition
- citizens energy association and solar club
- retrofitting electric power generator of waste incinerating plant Hagen
- solar cadaster
- climate fair program of energy supplier
- participation in Covenant of Mayors 2012
- council decision on climate protection settlement
- Initiative E-Mobility
- plan for wind converters, land-use plan
- 50 municipal climate partnerships since 2012
- modernization of the public bus fleet
- clean air plan

2. Integrated Climate Protection Concept (IKSK)

Cooperation Mark-E AG energy supply company / Environment Department Hagen

- Co-operation in the field of implementing actions
 - use of RES
 - implementing a solar cadastre
 - financial support of climate protection manager
- Projects on Reducing CO₂
 - assistance on a CO₂-balance
 - Climate Fair Tariffs
- „European Energy Award® “ (eea®):
 - active co-operation on energy efficiency measures (wood pellets)
 - financing co-payment to state NRW funding
- E-Mobility:
 - free provision of renting E-bikes and E-Scooters
 - PR and participation for E-Mobility at “Environment Days” each year

Source: Environment Department City of Hagen

2. Integrated Climate Protection Concept (IKSK)

Biomass wood chips heating plants
for two of the fire brigade equipment and station houses

- New fire brigade houses
- Reduction of about **350 tons of CO₂**

2. Integrated Climate Protection Concept (IKSK)

Wind Energy Production in Hagen

Year	Numbers	Power	Annual Subscription
• 1990	1	280 kW	360 MWh
(invoiced potential for 5 further sites at that time 2,000 MWh)			
• 2000	3	980 kW	1,800 MWh
• 2004	8	9,000 kW	19,000 MWh
• since 2013	10	12,500 kW	27,000 MWh

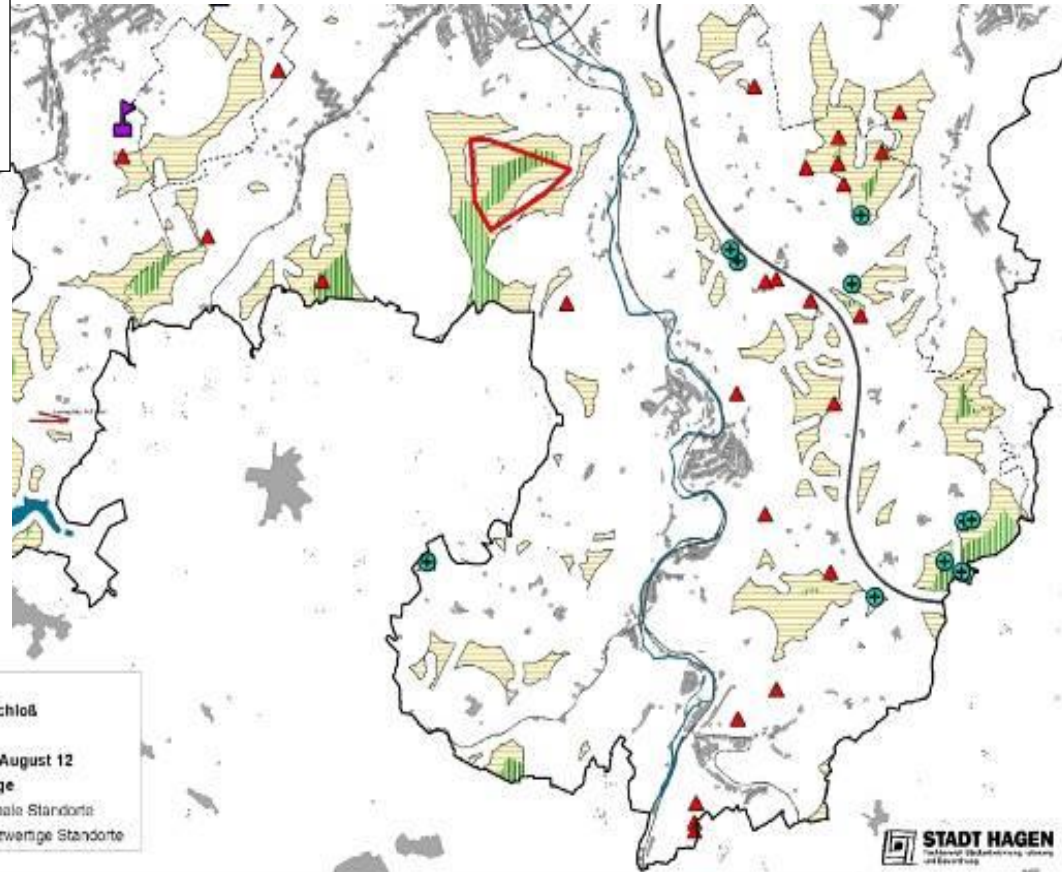

Reduction of CO₂ 20,000 tons

Windpower

New conditions sites and also areas which are currently requested but politically in discussion

Potential of wind power plant areas of Hagen

- Existing sites of the 10 wind power plants (red dots)
- Areas with marginal performance (yellow)
- Areas with optimal performance (green)

	Aussichtstürme, Schloß
	vorhandene WEA
	neue Anfragen bis August 12
	flächenhafte Anfrage
	GIS-Analyse = optimale Standorte
	GIS-Analyse = grenzwertige Standorte

2. Integrated Climate Protection Concept (IKSK)

The screenshot shows the 'Solarpotenzialkataster' web application. The top navigation bar includes 'Startseite', 'Solarpotenzialkataster', 'Fragen und Antworten', 'Tipps zur Planung', and 'Links'. The main interface features a map of a city area with buildings color-coded by solar potential: green for 'Gut geeignet', yellow for 'Geeignet', and red for 'Nicht geeignet'. A detailed data panel for a selected building provides the following information:

Prognose (Photovoltaik)	
Installierbare Leistung:	13,5 kWp
Stromertrag:	11.600 kWh/Jahr
Prognose (Solarthermie)	
Bitte geben Sie Ihre Haushaltsgröße unter 'Berechnungsgrundlagen' an, um die Solarthermieprognose zu aktivieren.	
Zusammenfassung	
Nutzbare Dachfläche:	108 m ²
CO ₂ -Einsparung:	8,1 Tonnen/Jahr
Kostenschätzung:	24.200 Euro

Below the data panel are three maps: 'Einstrahlung' (Solar radiation), 'Dacheignung (PV-Anlage)' (Roof suitability for PV), and 'Dacheignung (Solarthermische Anlage)' (Roof suitability for solar thermal). The bottom status bar shows the system time as 11:16.

Solar cadastre for the whole city

- Identification of one building
- Solar radiation
- Suitable roofs
- Calculation of production and costs

A grid of 17 Sustainable Development Goals (SDGs) icons. Goals 7 (Affordable and Clean Energy) and 13 (Climate Action) are highlighted with a red border. The icons represent: 1. No Poverty, 2. Zero Hunger, 3. Good Health and Well-being, 4. Quality Education, 5. Gender Equality, 6. Clean Water and Sanitation, 7. Affordable and Clean Energy, 8. Decent Work and Economic Growth, 9. Industry, Innovation and Infrastructure, 10. Reduced Inequalities, 11. Sustainable Cities and Communities, 12. Responsible Consumption and Production, 13. Climate Action, 14. Life Below Water, 15. Life on Land, 16. Peace, Justice and Strong Institutions, 17. Partnerships for Goal Achievement.

2. Integrated Climate Protection Concept (IKSK)

Geo-thermal heat pump of the new shopping mall “Rathaus-Galleria” Hagen

- The German Sustainable Building Certificate is a transparent and comprehensible rating system
- developed based on real-world circumstances
- defines the quality of buildings in a comprehensive way
- enables auditors to conduct an evaluation systematically and independently

Rated standard of
Rathaus-Galleria complex

GOLD standard

Source: DGNB Germany - Deutsche Gesellschaft für Nachhaltiges Bauen e.V. - German Sustainable Building Council

▶ The Seal is awarded in gold, silver, or bronze.

2. Integrated Climate Protection Concept (IKSK)

Art Quarter Hagen - Museum Emil Schumacher

- **Geo-thermal heat pump**
- PV plant on the roof
- Concrete central main building
- Glass cube structural glass facade with tempered frames

Usage of 81 auger piles with a length of 99 meters for temperature control of structural components

3. Participation in **European Energy Award®** in the City of Hagen

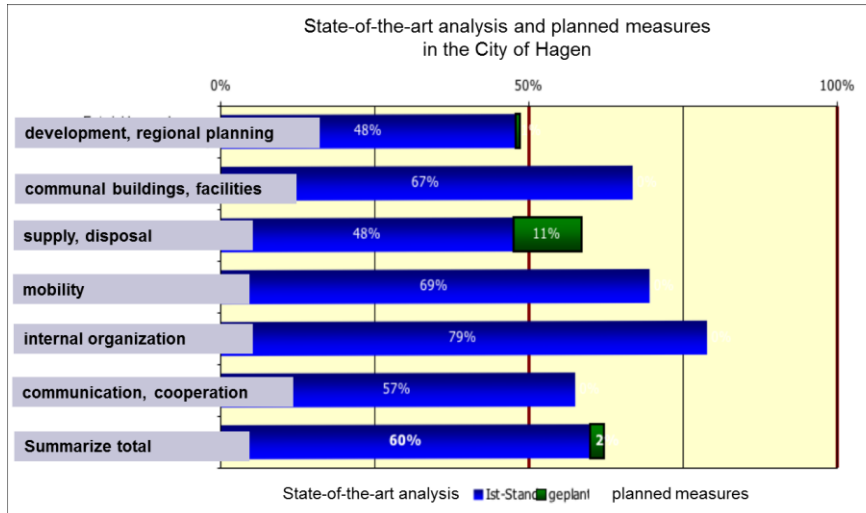

Fields of 'Sustainability' in the whole City of Hagen and the connection to SDGs

1. Sustainable urban development (**Integrated Urban Development Concept (ISEK)**, integrated district development concept (INSE) 2017, "Social city" Hagen Wehringhausen, concept of action for housing Hagen)
2. Climate protection management (**Integrated Climate Protection Concept (IKSK)**, energy district development, renewable energy, EU-LEAP project)
3. Participation in **European Energy Award®**; (Quality energy management and certification process)
4. **Integrated Climate Adaptation Concept (IKLAH)** (climate change, demographic change, heat in the city, heavy rain events, civil protection, emergency services)
5. **Flood alert and action planning** (EU-Flood Risk Management Directive)
6. Implementation of the EU Air Quality Framework Directive (implementation of the **Clean Air Plan Hagen**: public transport, truck routing, LEZ, mobility station, networked mobility)
7. **Sustainable mobility** (E-bike promotion, E-Mobility Days, car-sharing offers, working group biking, bike-traffic future workshop)
8. International cooperation (**Municipal Climate Partnership with Portmore**, Jamaica; water resource management in Burkina Faso, Connective Cities platform)
9. Sustainable consumption ("**Fairtrade Town Hagen**, fair trade schools & universities")
10. Environmental **Education for Sustainable Development** (theatre project, Plant-for-the-planet Academy at the distance University, working group "Climate justice", development of climate claim with youth groups, "World Construction" Project North Rhine-Westphalia)
11. Applying for **UNESCO World Heritage site** (GeoPark Ruhr area, Vorhalle Quarry Hagen-Vorhalle, Geo-Path Kaisberg)
12. Hagen applies for model municipality "**Global Sustainable Municipality North Rhine-Westphalia**" with the LAG21e.V. to implement SDGs in the city and its administration processes.

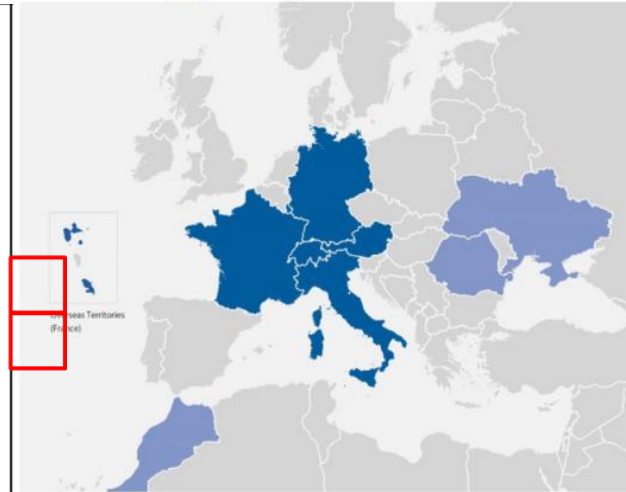

3. Participation in **European Energy Award®** in the City of Hagen

In 2008, 2012 and now again in 2017

Who is taking part?

Dark blue: Ordinary members of the Association European Energy Award
Austria France Germany Italy Liechtenstein Luxembourg Monaco Switzerland

Light blue: Pilot countries
Morocco Romania Ukraine

© European Energy Award®

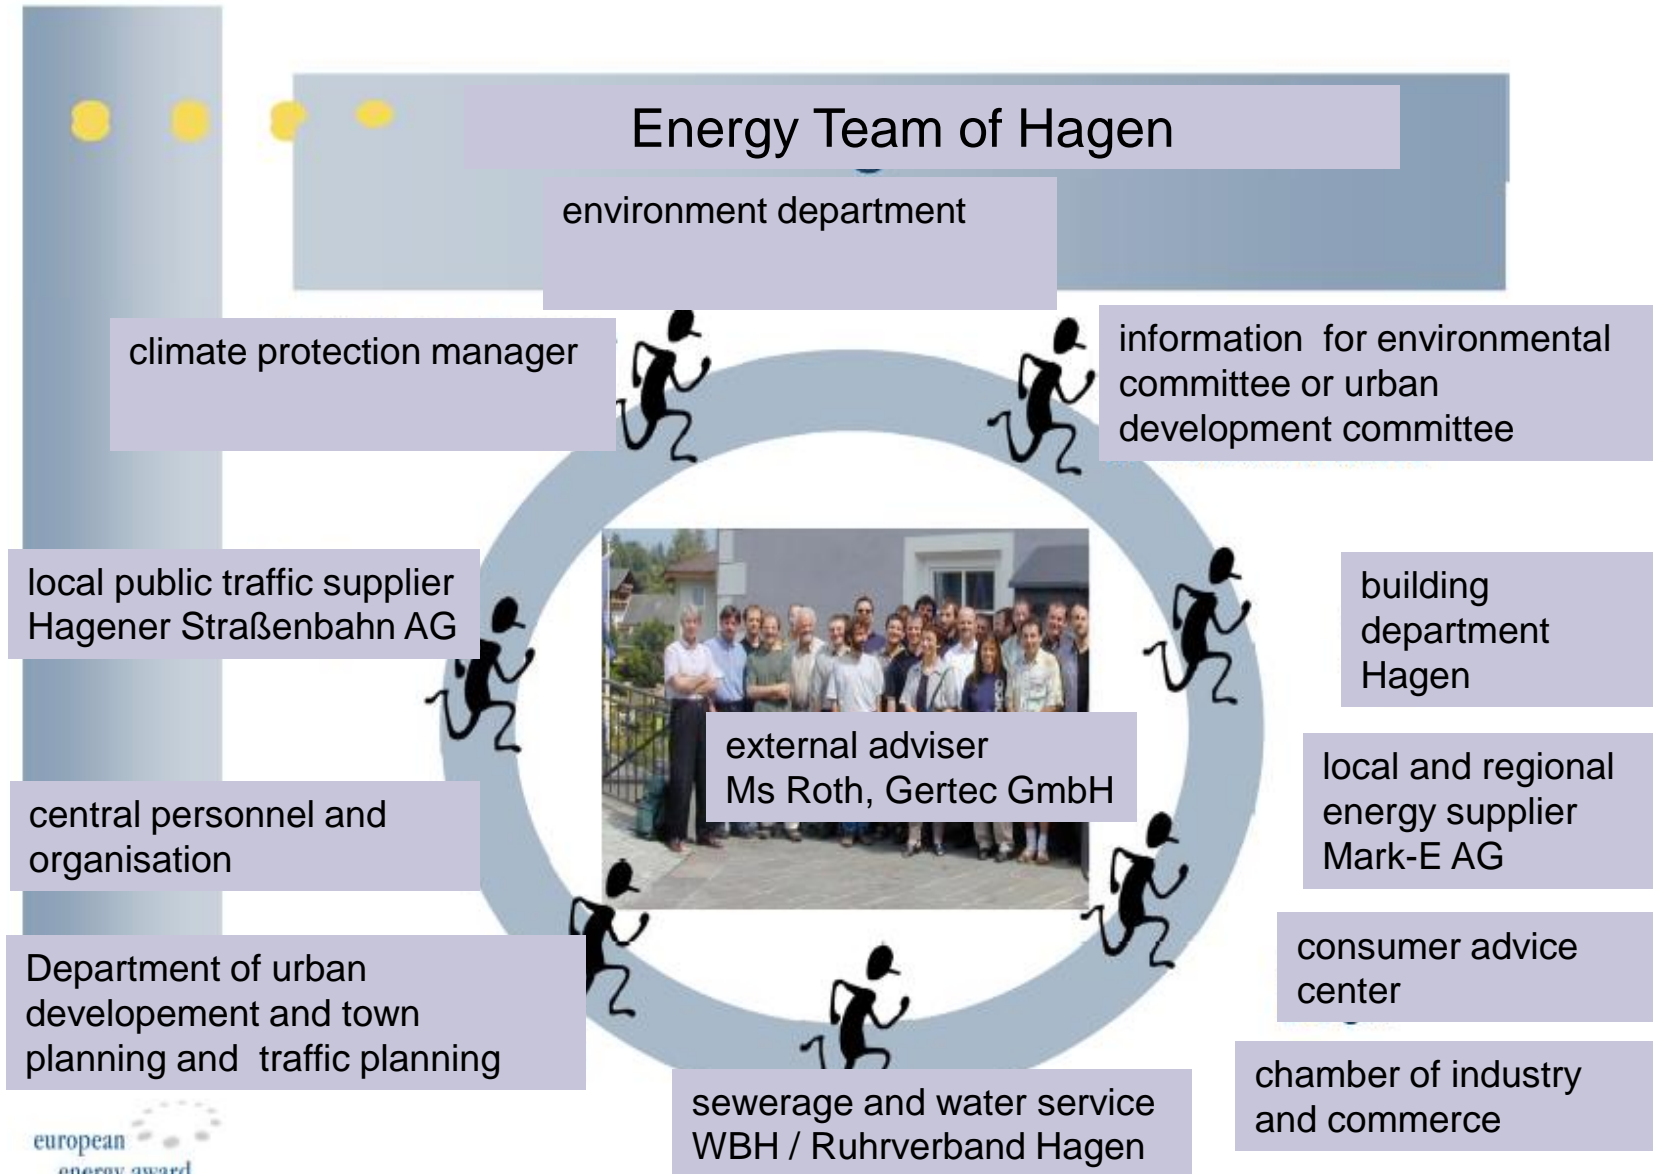

- quality management and certification system
- national and supranational energy strategies
- for municipalities by municipalities
- specific activity programs
- international benchmark

- many actors!

3. Participation in **European Energy Award®** in the City of Hagen

4. Integrated Climate Adaptation Concept for the City of Hagen (IKLAH)

Fields of 'Sustainability' in the whole City of Hagen and the connection to SDGs

1. Sustainable urban development (**Integrated Urban Development Concept (ISEK)**, integrated district development concept (INSE) 2017, "Social city" Hagen Wehringhausen, concept of action for housing Hagen)
2. Climate protection management (**Integrated Climate Protection Concept (IKSK)**, energy district development, renewable energy, EU-LEAP project)
3. Participation in **European Energy Award®**; (Quality energy management and certification process)
4. **Integrated Climate Adaptation Concept (IKLAH)** (climate change, demographic change, heat in the city, heavy rain events, civil protection, emergency services)
5. **Flood alert and action planning** (EU-Flood Risk Management Directive)
6. Implementation of the EU Air Quality Framework Directive (implementation of the **Clean Air Plan Hagen**: public transport, truck routing, LEZ, mobility station, networked mobility)
7. **Sustainable mobility** (E-bike promotion, E-Mobility Days, car-sharing offers, working group biking, bike-traffic future workshop)
8. International cooperation (**Municipal Climate Partnership** with Portmore, Jamaica; water resource management in Burkina Faso, Connective Cities platform)
9. Sustainable consumption ("**Fairtrade Town Hagen**, fair trade schools & universities")
10. Environmental **Education for Sustainable Development** (theatre project, Plant-for-the-planet Academy at the distance University, working group "Climate justice", development of climate claim with youth groups, "World Construction" Project North Rhine-Westphalia)
11. Applying for **UNESCO World Heritage site** (GeoPark Ruhr area, Vorhalle Quarry Hagen-Vorhalle, Geo-Path Kaisberg)
12. Hagen applies for model municipality "**Global Sustainable Municipality North Rhine-Westphalia**" with the LAG21e.V. to implement SDGs in the city and its administration processes.

4. Integrated Climate Adaptation Concept for the City of Hagen (IKLAH)

(Sources: Fire department City of Hagen, The Regional Association Ruhr (RVR), own photo)

- impact of the urban climate is a major challenge for an **aging urban society**
- population decline offers **space potentials** for adaptation measures
- approaches for climate adaptation within spatial overall planning, especially for urban development planning, water management, and open space planning

(Sources: own photos)

- steering group, team of municipal expert, working groups
- analysis and strategy with all actors of the city administration, local politicians and civil society

Environment Department, City of Hagen
Unit for general environmental planning

Joint project partner:

4. Integrated Climate Adaptation Concept for the City of Hagen (IKLAH)

Outputs will be recommendations for the future urban development in the city

- integrated urban development concept
- reconfiguration of the zoning plan

(Sources: own account)

Sources: Environment Department and City of Hagen

- local climate analysis map
- hazard map for heavy rainfall
- flood hazard maps (present and future)
- priority/main roads for the fire department
- maps of specific sensitivities (part of vulnerability assessment)

Environment Department, City of Hagen
Unit for general environmental planning

Joint project partner:

TU Dortmund University - Faculty of Spatial Planning

Regionalverband Ruhr
The Ruhr Regional Association

ZIELE FÜR NACHHALTIGE ENTWICKLUNG

4. Integrated Climate Adaptation Concept for the City of Hagen (IKLAH)

Conclusions

- knowledge transfer in the civil society and municipal administration and growing awareness among the public and policymakers
- establishing climate adaptation as cross-sectoral issue (interdisciplinary) within the urban development process
- regional and national network meetings, round tables, future workshops, scientific publications (developed methods)
- spreading over the intercommunal network of The Regional Association Ruhr (RVR)

Source: The Regional Association Ruhr (RVR)

Outlook and perspective:

transferring projects' approach to other municipalities in the Ruhr Area

8. Municipal Climate Partnership with Portmore, Jamaica

Fields of 'Sustainability' in the whole City of Hagen and the connection to SDGs

1. Sustainable urban development (**Integrated Urban Development Concept (ISEK)**, integrated district development concept (INSE) 2017, "Social city" Hagen Wehringhausen, concept of action for housing Hagen)
2. Climate protection management (**Integrated Climate Protection Concept (IKSK)**, energy district development, renewable energy, EU-LEAP project)
3. Participation in **European Energy Award®**; (Quality energy management and certification process)
4. **Integrated Climate Adaptation Concept (IKLAH)** (climate change, demographic change, heat in the city, heavy rain events, civil protection, emergency services)
5. **Flood alert and action planning** (EU-Flood Risk Management Directive)
6. Implementation of the EU Air Quality Framework Directive (implementation of the **Clean Air Plan Hagen**: public transport, truck routing, LEZ, mobility station, networked mobility)
7. **Sustainable mobility** (E-bike promotion, E-Mobility Days, car-sharing offers, working group biking, bike-traffic future workshop)
8. **International cooperation (Municipal Climate Partnership with Portmore, Jamaica; water resource management in Burkina Faso, Connective Cities platform)**
9. Sustainable consumption ("**Fairtrade Town Hagen**, fair trade schools & universities")
10. Environmental **Education for Sustainable Development** (theatre project, Plant-for-the-planet Academy at the distance University, working group "Climate justice", development of climate claim with youth groups, "World Construction" Project North Rhine-Westphalia)
11. Applying for **UNESCO World Heritage site** (GeoPark Ruhr area, Vorhalle Quarry Hagen-Vorhalle, Geo-Path Kaisberg)
12. Hagen applies for model municipality "**Global Sustainable Municipality North Rhine-Westphalia**" with the LAG21e.V. to implement SDGs in the city and its administration processes.

8. Municipal Climate Partnership with Portmore, Jamaica

Portmore

Sources: Environment Department City of Hagen

- Jamaica, Parish Saint Catherine
- about 200,000 inhabitants (2014)
- increasing population
- founded 1960
- founded on marshland
- 131 sq km
- coastal marshland
- „Jamaica’s Sunshine City“

climate partner since 2012

Programme: „50 municipal climate partnerships by 2015“

Hagen

Source: Environment Department City of Hagen

- Germany, North-Rhine Westphalia
- 194,776 inhabitants (2016)
- est. 163,000 (2030)
- founded in 1746
- 160 sq km
- 42% forest area
- 86 - 438 m a. SL
- „Gate of the Sauerland“ hill region East-Southern part of North-Rhine Westphalia

10. Education for Sustainable Development

Lucy the Killer Mosquito

- the theatre trilogy deals with the African mosquito "Lucy". The topics: population growth, world hunger, combating poverty, social inequality and climate change
- initiation of new life style (Sufficiency-) debate:
 - efficiency - clearing out
 - unbundling - slow-movement
 - no commercialization
- the plays are priority for children of primary and pre-school age. Aim of the author: no dramatizing "Concerning Theatre"
- the trilogy can be replicated by each theatre

Performing rights belong to

10. Education for Sustainable Development

World Construction Project

Wall painting in Hagen in Sep 2017

- focus of the project should reflect on how to translate relevant targets of the Sustainable Development Goals (SDGs) into meaningful and feasible pictures
- discussion during the period of construction of the subject
- involvement of different target groups in Hagen

10. Education for Sustainable Development

Plan of an exhibition of
Network Fair Metropole Ruhr + Misereor

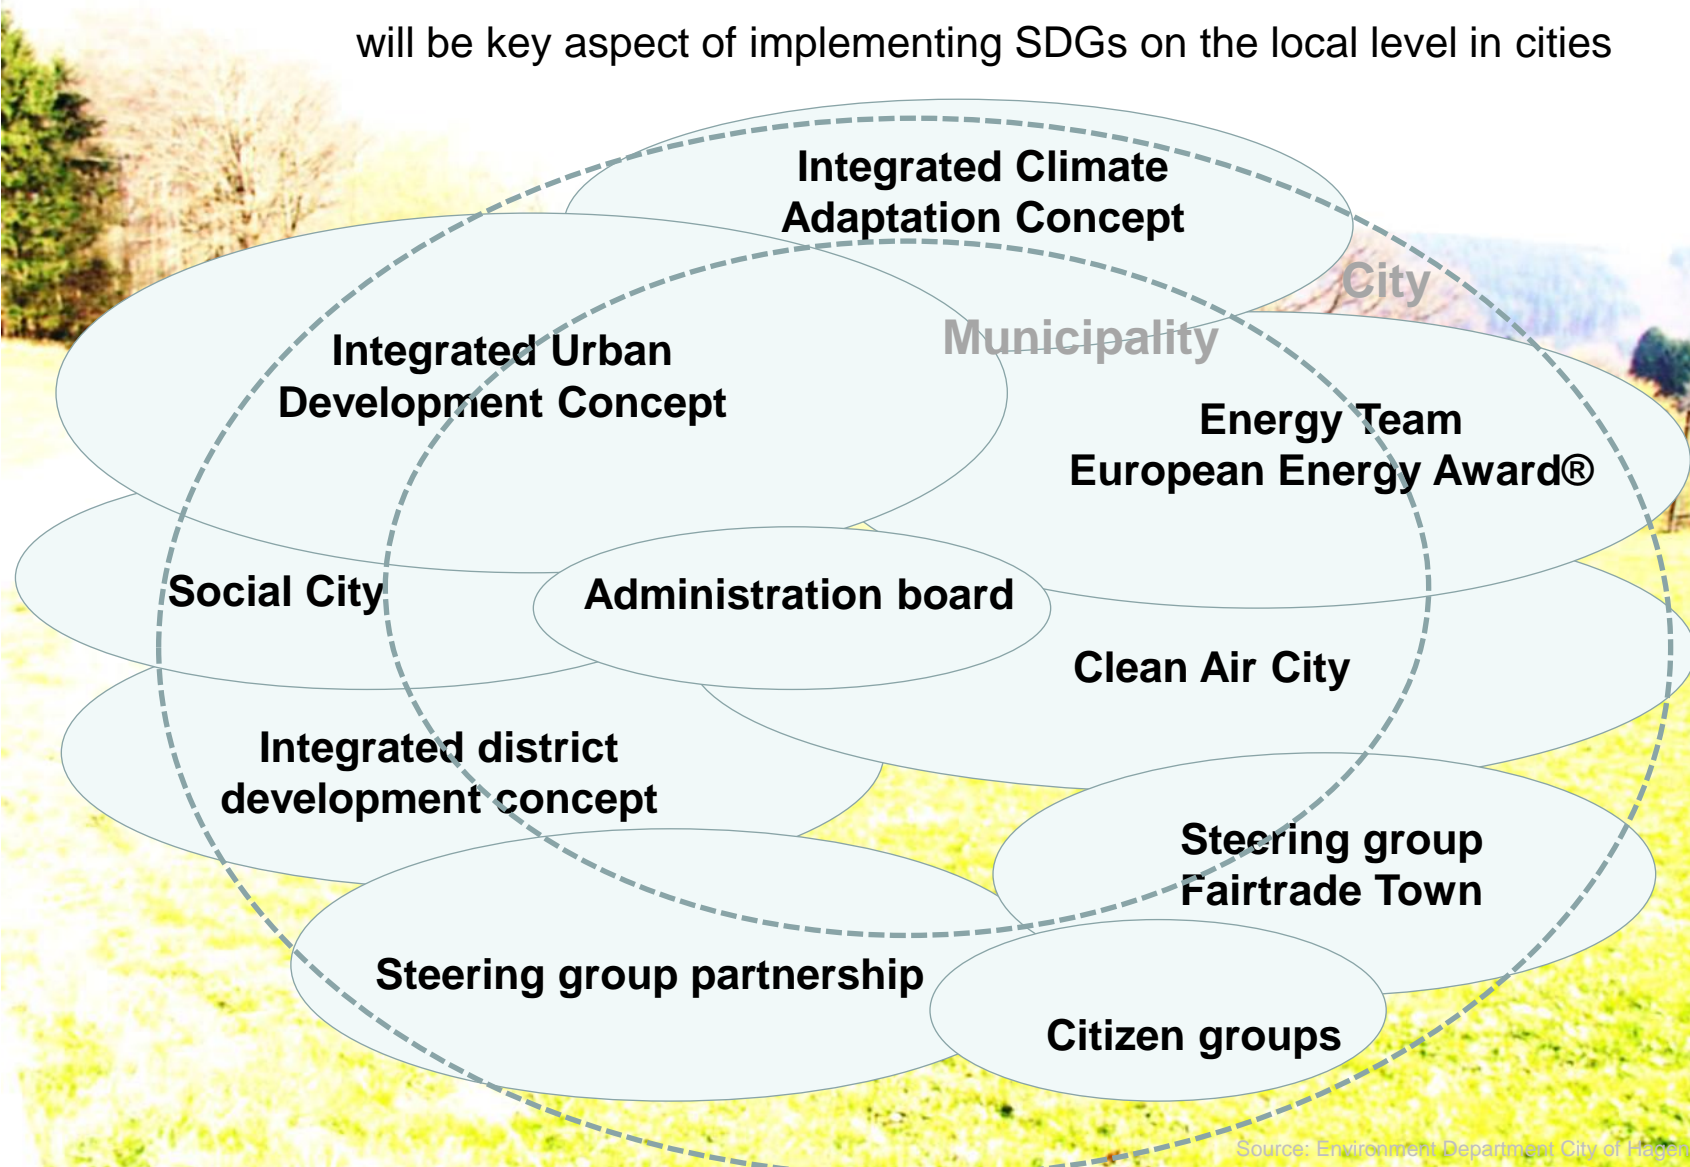

**„The scandal has many faces
child labor and what can we do about it“**

in the Hagen city hall in Dec 2018

Main Experience

involvement of different groups and exchange of experts in different concepts
inside and outside of the municipality
will be key aspect of implementing SDGs on the local level in cities

Thank you for your attention!
